The Daniel Webster monument at Marshfield, Mass., has been defaced by vandals.

A FRIENDLY solution of the Tonquin dispute between France and China seems more probable.

The proposed commercial treaty between the United States and Mexico, is exciting much interest and some jealousy in England.

GOVERNOR KNOTT has appointed Prof. J. D. Pickett a representative to the Convention of Charities and Corrections in session at Louisville.

RUSSIA is making extensive military preparations along the Austrian and German frontiers. Enormous provision depots have been established, and vessels and railway trains have been pressed into service in transporting horses.

THE famous thoroughbred stallion, Prince Charlie, recently purchased by Daniel Swigert, has arrived in New York from London, on the steamship Nottingham. He will be forwarded to Lexington on Thursday.

TWENTY-SEVEN States are represented at the National Colored Convention in Louisville. After four hours of wrangling Fred. Douglass was elected President. He denies having said that if Ben. Butler is nominated for the Presidency he will get the colored vote.

The report of the Department of Agriculture (Washington City) for the current month gives the condition of Kentucky crops as follows:

The condition of wheat, when harvested, below an average. Oats first-class. Rye good, and barley fair.
The condition of corn, September 1, in the south and southwestern part of the State, was very fair, and the balance spotted and injured by drought.
Potatoes (Irish) first-class. Potatoes (sweet) good.
Apples not good, not one-half of a crop raised.
Grapes below an average.

MR. BRUCE CHAMP, editor of the Bourbon News, was in Maysville during the fair, and appears to have noticed some of our peculiar institutions. Here is what his last paper contained on the subject:

Having noticed the Maysville BULLETIN's great hog anti-path, we counted the hogs and cattle on the street whilst riding in from the fair Saturday. Our bus driver whipped twenty-five hogs, eleven cows and three flocks of geese out of his way down to the Central Hotel, and yet half the town wasn't traversed. As it was pouring down a flood of rain, it is but fair to presume, too, that only a few hogs were out from shelter. When the City Council have their annual "round up," we'll wager one of Clarence Stanton's pipes that five hundred of the dirty scavengers can be produced, and not half try.

THE Georgetown, Ohio, Gazette truthfully says: The mistake of placing fictitious values on desirable sites for manufacturing is a common one, owners seeming to lose sight of the fact that the enhanced value of their remaining lands would amply compensate for selling the few acres wanted at reduced rates or even donating it. While useless extravagance is always to be condemned, wise outlays for the good of your fellows is always to be commended. Of course, every man has a perfect right to do just as he pleases about such matters; but the town which is thus borne down by these human dead-weights is indeed deserving of sympathy.

THE Yeoman of the 25th inst. says: The keys of the Land Office were surrendered to Mr. Cecil yesterday evening by Hon. J. R. Hendrick, who is here acting as attorney for Mr. Novell, in his personal suit against Cecil. Captain Sheldon has held possession of the books and papers of the office since the 5th of September, upon which day Mr. Cecil appeared and demanded them. Cecil declined to recognize Cecil as Register, and refused at that time to let him enter the office. What has induced him to yield that position now is not stated, but it is quite certain that he had no earthly right to retain the office, and that his action was improper in the highest degree.

Men, Women and Things.

The Buffalo (N. Y.) Express has reduced its price to two cents.

At Glendive, Mont., nothing is sold for less than a quarter of a dollar.

Mrs. Langtry is called by Le Figaro "the American Sarah Bernhardt."

The Dakota constitutional convention proposes to give women the right to vote at school elections.

It is said to improve the flavor of eggs, if, when they are freshly laid, they are placed in butter.

London night police are not allowed to carry revolvers, but an effort is being made to abolish the prohibition.

Monsieur Capel says it is a rare thing to find beauty of countenance in a woman allied with great strength of soul—intellectual power.

Samuel Johnson says: "A man is generally better pleased when he has a good dinner upon the table, than when his wife speaks Greek."

C. P. Huntington did not begin to accumulate his immense fortune until he was past forty, when he staked all his savings on the scheme of the Pacific railway.

Politeness always pays. A gentleman who courteously gave up his seat on a Rockaway train had the satisfaction of knowing that his substitute was soon afterward killed.

It kind of breaks up the girl at the summer resort to have him naively ask her: "What's going to be your little dodge to avoid recognizing me when we meet in the city?"

Gen. Joseph Holt—with the exception of Jacob Thompson, the only surviving member of Buchanan's cabinet—lives in pleasant retirement on Capitol Hill in Washington. He was appointed from Kentucky.

A new scheme has been started at a New York theater. Season tickets securing a seat at every matinee of the season are offered at \$10 a piece, an average of about thirty-five cents a performance. The tickets are transferable.

Those who deny the tendency of the Chinese to improve in this country may find it difficult to explain recent purchases of lands on the Pacific Coast by wealthy Chinamen. Land surely cannot be taken home to China.

For and About Women.

Miss Kate C. Howe, of Cambridge, is said to be most finished amateur actress in New England.

Miss Catharine L. Wolfe, the "American Baroness Burdett-Coutts," is building a \$500,000 residence at Newport.

It is stated that certain gloves worn by Mme. Sarah Bernhardt in "Fedora" measured no less than four and a half feet in length.

Mrs. Senator Allison, who lately suicided at Dubuque, was worth \$200,000 in her own right at the time of her death. She executed a will last November in which she bequeathed \$30,000 in cash and all the furniture, pictures, books and statuary of the Allison residences in Washington City and Dubuque to her husband.

It often happens that a woman marries the wrong man, but not in the sense in which a lady did so who was recently married in Milwaukee. In this case it seems that there were twin brothers, one of whom is desirable and good and the other undesirable and bad. It was upon the former that the lady's heart was fixed, and whom she desired to marry. As fate would have it, however, the immoral twin, by some complication that remains unexplained, was substituted for the moral one, and the lady did not discover her mistake until after the marriage. What became of the moral brother, to whom she was betrothed, is not stated. He does not figure in this singular little drama. Though there is too much divorcing in the United States, this seems to be an instance in which it would be desirable, ending to the happiness of all parties and inflicting condign punishment upon a worthless twin.

Rumor revived, that the gentleman from Flemingsburg is about to wed the eldest daughter of Captain —, who resides in that spacious mansion on an east end corner.

As he arose from the breakfast table she imparted the wholesome advice. Most of the shadows that cross our path through life are caused by our standing in our own light. He said his conscience still had all the brightness of newness. No doubt he never used it.

"Blood-food" is the suggestive name often given Ayer's Sarsaparilla, because of its blood-enriching qualities.

Try Ayer's Pills and be cured. Misery is a mild word to describe the mischief to body and mind caused by habitual constipation. The regular use of Ayer's Cathartic Pills in mild doses will restore the torpid viscera to healthy action.
